

PATTERSON

PLASTICS & MANUFACTURING

plastics and wire products for the concrete construction industry

Slab Bolster

- ◆ All plastics composite for maximum strength and no corrosion.
- ◆ Posi-lock clip allows creation of unlimited length.
- ◆ Covers from 0.75" to 4.5" – tallest all plastic bolster in the industry.
- ◆ Bar stops on the back to keep bars from rolling.
- ◆ Small contact points to minimize exposure.
- ◆ A wide-T backbone beam for strength and stability.
- ◆ Standard bolster is used for most applications and a heavy duty design for more demanding applications.
- ◆ Alternate hook and loop coupler for working around corners.
- ◆ Optional plate accessory to convert to slab bolster upper.
