PLASTICS & MANUFACTURING

*plastics and wire products for the concrete construction industry*

## Stack Chairs - Standard and Heavy Duty

### Stack Chair Features:

- ◆ All plastic polymer composite for strength and durability - no corrosion.
- ◆ Cup permit stacking in a multi-mat applications there by reducing tipping.
- ◆ Clips control bars from falling out of place.
- ◆ Open design allows maximum concrete flow eliminating voids.
- ◆ Small contact footprint design minimizes exposure.
- ◆ Standard chairs from 1" to 2" cover.
- ◆ Heavy duty chairs from 1-1/4" to 4-1/2" cover.<sup>1</sup>
- ◆ Optional sand plate for heavy duty chairs to use on grade or foam.
- ◆ Standard color gray but other color includes white, sand, tan and custom matched colors.

1 - Higher covers achieved by stacking.
